***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 13-26, drawn to tracking projects classified in class 705 subclass 9.
- II. Claims 10-12 drawn to submitting a project proposal classified in class 705 subclass 1.

The inventions are distinct, each from the other due to the following reasons:

1. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as submitting a proposal that is not required for invention I, which tracks projects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3623

3. The Examiner contacted Robert Chickering via voice mail on Monday December 19, 2005 and due to no reponse, is sending out the restriction.
